# MASTER BUILDERS

*A Design-Build Firm*

***"Helping To Make Houses Into Homes"***

- ❖ Architectural Design
- ❖ Custom Remodeling
- ❖ Historic Restoration
- ❖ Custom Homes
- ❖ Exquisite Decks

## About Master Builders...

Master Builders is a family-owned business whose aim is to provide professionally designed building solutions for our clients as we help them continue to make their houses into homes. Whether your project is large or small, form follows function. Good design precedes good workmanship.

Combining academic design credentials with long-term professional construction experience we provide a very thorough approach to your project.

We use the Master-Planning approach in every project. Master Planning provides a model for proper analysis, client input, creative conceptualization, and, finally, a realistic and viable master plan specially fit for the customer's unique project. When applied to your home this produces a home, either new or renewed, that will best fit your needs both now and in the future.

We do one project at a time. This means you're not left wondering where the crew is and when you'll be given proper priority.

## About What We Offer...

After so many decades of working in construction a person is bound to pick up a few skills along the way. Here are some of the skills we can offer to you...

- Full Concrete Work
- Full Masonry Services
- Fossilcrete Concrete Textures
- Full Architectural Design Services

## Our Philosophy of Business...

*Fair Work for a Fair Price.* One's home is generally their largest financial investment. As such it should be treated with great care. We see every project as part of that great investment. You deserve to get quality workmanship for a fair price.

*Lifelong Learners.* Every project seems to bring something new to the plate. We learn from every project. The attitude we try to emulate is good, better, best. Hopefully we're building a better home today than we did 10 years ago. We aim to improve our skill set each year. No status quo allowed.

*True Humility.* When we make a mistake, we own it. None of us are perfect, but what we can be faithful in is taking ownership of our mistakes and correcting them.

*Good Communication* We aim to communicate in a honest and respectful manner. At Master Builders we try hard to keep those doors of communication open.

***Above all, we strive to serve The Master, Jesus Christ, in all that we do and say.***
